# Bank It -- Quickly

"When I got it into the bank I found I could hold on to it," said the successful man when asked how he learned to save money.

"But," he went on, "I should have learned it five years younger than I did. I finally found that if I put my money in the bank first, instead of carrying it in my pocket, I could save it. Once in the bank, it stayed there."

The Bank-It-First habit—everyone ought to have it. The sooner you start, the better. It paves the way to success.
