ADMIRAL DEWEY arrived at New York yesterday morning two days ahead of time. This will not, however, change the plans for his reception as he will remain on board his boat until the original date for his landing arrives. New York will simply take the lid off Thursday, Friday and Saturday.

ALREADY Cuba seems to be demonstrating her ability to pay for her own regeneration, for under the management of the United States Government the receipts of the island from January 1, 1899, to June 30 of the current year, exceeded the expenditures by the very handsome sum of $1,480,021. With a decent faction of such co-operation among the wily Filipinos in the establishment of order and the development of trade and industry, the stock terms of abuse and misrepresentation in the anti-expansionist camps would soon be heard and seen no more.

JERRY SIMPSON, of Medicine Lodge, and late member of Congress from a Kansas district, was recently down for a speech at an old soldiers' reunion in his State. The committee stipulated that he was not to touch on politics. But Jerry had not talked long until he spoke disrespectfully of President McKinley, denounced the war against the Philippine insurgents and announced his friendship for the rebel chief, Aguinaldo. This was too much for his audience of old soldiers and they brought his remarks to an abrupt close amid cheers for the flag and the strains of the Star Spangled Banner by the band. Anti-expansion and free silver are both dead issues in Kansas.

THE "aid and comfort" being given the Philippine insurgents by the copperheads of the vintage of 1899 is bearing fruit, if we are to believe General Otis, commander of our forces there, and he is in a position to know what he is talking about. He says there is no doubt as to the final result of the contest, but that the success of the American army is heavily handicapped by the "aid and comfort" given Aguinaldo and his followers by anti-expansionists at home, who are constantly denouncing the work of the administration in its efforts to put down the insurrection. Force of circumstances placed these islands and their people in our hands, and we are responsible for their well-being. Our flag once raised over these possessions must never be withdrawn, and our efforts to give the people protection and good government should not be impeded by our own people. The action of the anti-expansionists is only prolonging the struggle at a cost of millions of money and thousands of American lives.

THE HOME NEWS.

Punxsutawney Brewery Robbed.

Sunday night burglars entered the brewery of Baumgardner & Snyder at Punxsutawney, and after seizing and binding the watchman, Peter Phillips, they blew the safe open and decamped with the valuables it contained. It is not known how much money they obtained. The watchman remained bound until his cries brought assistance.

Smallpox in Blairsville.

Blairsville has a well defined case of smallpox. Charles Hartman, who has been employed at Derry Station, came home sick a few days ago, and his disease has been pronounced genuine smallpox. He is at the residence of Levi Palmer, on the north side, and the house is carefully quarantined. The most rigid precautions are being taken against the spread of the disease by the authorities.

HE IS DEAD.

Blairsville's smallpox patient is dead and the manner of his death is variously commented on by strangers and citizens. The name of the man was Charles Hartman and he came from Hillside and was on his way home north of this place when he was taken sick at Blairsville and could go no further. He went to the home of his sister, Mrs. Levi Palmer and went to bed. Dr. Rutledge called and pronounced the disease smallpox. On Saturday night Mr. and Mrs. Palmer and the children left the house, leaving the sick man alone. The Board of Health and Poor Board made efforts to secure a nurse, but failed, and no one appeared to care to look after the unfortunate man. On Monday afternoon Joseph Moorhead hearing of the condition of the man went to the Palmer House to look after him. He found no member of the family present and the sick man could not be found down stairs. He then went upstairs and found the dead body of Hartman huddled up in a clothes press, cold in death. When he died or how no one will ever know. Mr Moorhead prepared the body for burial, and put it in the coffin and it was soon taken to the cemetery.

There are no new cases in the town and all who have had connections with the Hartman case are closely quarantined and no spread of the disease is anticipated.

Cancer Removed.

Mrs. Jane Duncan, of Marion Center, aged 86 years, has suffered from a cancer or tumor on the face for five or six years past. It had grown to the size of a hen egg. It was feared, on account of her age, that an operation would prove fatal. Dr. Dodson, of Indiana, removed the tumor and the patient has entirely recovered and says she suffered little pain from the operation.

A Cure for Hog Cholera Discovered.

An exchange says that every newspaper in the State should publish the fact that burnt corn is a sure cure for hog cholera. It was discovered by the burning of a pile of corn belonging to a distillery. It was thrown to the hogs and eaten by them. Before that a number of them had been dying each day but the disease immediately disappeared. It is so simple a remedy that it can be easily tried, and if it is found efficacious should be generally used as a preventive.

Some of Congressman Jack's Recent Doings.
