THE STAFF OF LIFE

The bread eaten is worth more to the young child than the meat it eats, that is if the bread is good. But you cannot have good bread unless you have good flour. By using "Tidal Wave" you absolutely run no risk. Ask any one who has ever tried Tidal Wave and they will tell you that there is nothing like it for sweetness, whiteness, nutriment and true economy.

No firm DARE to advertise a poor flour. It would not Pay. The more attention you call to it the worse for it. "Tidal Wave" doesn't hide it's light "under a bushel", it comes out in the open and invites examination and investigation. A good flour only can stand publicity. Price \$1.35 per sack. Victor Roller \$1.25 "U Knead Them." See that you get them.
